

The following document is the license for certain VOLT songs.

## Section 1: What you **can** do.

1A	You can...	As long as...
1A	Use VOLT songs as background music for videos, games, and other content you produce.	<p>The song is not the focal point of the content, and you place credits to VOLT in a very <i>*clear and prominent place</i>, in the following form:</p> <p>Song(s) used: {song name}, by VOLT/Conner Vieira (Other songs: <a href="https://cvprogramming.tk/volt.html">https://cvprogramming.tk/volt.html</a>, This song: {link})</p> <p>Simply change “{song name}” and “{link}” to the song name and the link to the official music video on the “VOLT Music” YouTube channel.</p> <p><i>*clear and prominent place indicates that the credits must be placed someplace associated with the content where the consumer is highly likely to see them. (For example: at the top of a YouTube description, a short message at the beginning of a YouTube video, or a prompt that shows up before launching a program)</i></p>
1B	Remix or build upon VOLT songs.	You give credit to VOLT (See 1A), and indicate what changes were made in a clear and prominent manner.
1C	Request special permissions to use a VOLT song in a way restricted by the license.	You contact <a href="mailto:volt@cvprogramming.tk">volt@cvprogramming.tk</a> , and get very clear, and provable permission to do so before you create and/or publish content that violates the license.

## Section 2: What you **can't** do.

	You can't...	Even if...	Instead...
2A	Claim or imply in any way you helped create or design any part of a VOLT song.	You give some credit to VOLT.	Provide a link to the song in the official music video on the VOLT Music YouTube channel.
2B	Distribute VOLT songs from your website, server, or in person.	You give credit to VOLT.	Distribute the official link from the " <a href="https://cvprogramming.tk">https://cvprogramming.tk</a> " server if you want to share a song with someone.
2C	Create and/or publish content where a VOLT song is the highlight, or focal point of the content.	Its a music video, or some other content where VOLT music could be considered the focal point.	Use VOLT music as background music.  For example: Using VOLT as background music to a game level is OK, since the user's focus isn't on the song directly. <b>however</b> Using VOLT music in a music video is NOT allowed because the user's focus is on the song and the video.  If you want to get special permissions to use a VOLT song in this manner, please contact <a href="mailto:volt@cvprogramming.tk">volt@cvprogramming.tk</a> .
2D	Create or modify a license for a VOLT song.	You modify, remix, adapt, or build upon the song.	Contact <a href="mailto:volt@cvprogramming.tk">volt@cvprogramming.tk</a> if you wish to license a remixed version of a VOLT song in order to work out the terms of this license.

## Section 2: What we **reserve the right to do**.

	We reserve the right to...	However, we will...
3A	Have any content in any form removed and/or deleted that is associated with any VOLT songs.	Accept appeals if you believe the request was unwarranted. This doesn't guarantee the content removal will be revoked however.
3B	Place any content directly or indirectly affected by a VOLT song anywhere on the VOLT site, or other VOLT controlled accounts.	Give the creator of the content credit, and they can request to get it removed if they wish.
3C	Ban any user or group of users from using VOLT songs, and from publishing any content affected directly or indirectly by any VOLT songs.	Accept appeals if you believe the request was unwarranted. This doesn't guarantee the usage ban will be revoked.
3D	Change this license without notice.	Grant a pardon if a user understandably misses a license change, and fails to follow a newly created or adjusted term.
